PHILADELPHIA LAND BANK

SEPTEMBER 9, 2025, BOARD OF DIRECTORS MEETING MINUTES (DRAFT)

A Regular Meeting of the Board of Directors of the Philadelphia Land Bank was held on Tuesday, September 9, 2025, at 1234 Market Street, 17th Floor Boardroom, Philadelphia, PA 19107, of which proper notices were given. A condensed certified transcript of this meeting is attached to these minutes as **Exhibit A**.

Call to Order

The meeting was called to order at 10:05 am.

Ms. Imredy Saah announced that prior to the Public Session, the Board held an Executive Session during which Mr. Rodriguez gave an update on the Land Bank's ongoing assessment being managed by Guide House Consultants. She announced that public comments will no longer be read aloud during meetings but will instead be attached to the minutes, with copies available for review. Ms. Imredy Saah also reviewed the Board's public comment policy and requested that attendees sign up to make public comments and sign the attendance sheet.

Item I Roll Call

The following members of the Board of Directors reported present: Herbert Wetzel, Nicholas Dema, Darwin Beauvais, Cornelius Brown, Andrew Goodman, Maria Gonzalez, Jenny Greenberg, Kelvin Jeremiah, Rebecca Lopez-Kriss, and Majeedah Rashid.

Michael Johns was absent from the Board meeting.

The following Land Bank staff members were present: Angel Rodriguez, Andrea Imredy Saah, Esq., Lily Bernadel, Esq., Cristina Martinez, Brian Romano and Carolyn Terry.

Public Attendees: The list of public attendees follows these minutes.

A quorum of Directors was present, and the meeting, having been duly convened, proceeded with business.

Item II Approval of Board Minutes

Chair Wetzel called for a motion to adopt the Board meeting minutes of August 12, 2025.

Mr. Beauvais moved to approve the minutes. Ms. Gonzalez seconded the motion.

Upon motion made and duly seconded, the Board approved the Board meeting minutes of August 12, 2025.

PLB Board of Directors DRAFT Meeting Minutes for September 9, 2025

Item III Executive Director's Report

No Executive Director's report was provided this month.

Item IV <u>Development</u>

IV.A. Affordable Housing (unsolicited)

Ms. Martinez presented Item IV.A, requesting Board approval for an unsolicited application from Civetta Property Group LLC, to develop thirty (30) single-family homes in the 7th Council District. Fifteen (15) homes will be two-story and fifteen (15) homes will be three-story, all with three bedrooms, two bathrooms, no basements, and with an approximate area of 1,375 square feet. The homes will be sold for up to \$280,000 to households at or below 100% AMI and will qualify for the Turn the Key program. The project was evaluated under the disposition policy and includes an EOP plan.

Chair Wetzel called for questions from the Board.

Mr. Jeremiah noted that a letter from Councilmember Lozada had just been circulated and asked whether the Board's decision on the item would be moot, given that the Councilmember does not support the project and would not introduce it in City Council. Ms. Imredy Saah responded that the Board's and City Council's decisions are intended to be separate, and that one should have no bearing on the other. The Board's role is to vote on qualified applications, and Council support is not required for the Board to approve a qualified disposition.

Mr. Beauvais asked whether the developer had communicated with the Councilmember, noting that the application was unsolicited. Mr. Jeremiah noted that the Councilmember's letter confirms she had spoken with the developer. Mr. Beauvais asked for clarification on the substance of that discussion.

Ms. Brennan Tomasetti of Civetta Property Group (Civetta) reported that Civetta began engaging with Councilmember Lozada's office in November 2024 to discuss community outreach and offer educational seminars. She shared that in June of this year, the Council office approved a seminar to take place on August 13th. Ms. Tomasetti explained that Civetta had previously hosted a community event on July 10th with about 10 attendees, received feedback on the location, and rescheduled for July 24th at the Council office's preferred site, where about 33 people attended. She stated that between those events, Civetta also held several property tours to show completed and in-progress homes. She added that on August 13th, the day the educational seminar was scheduled, the Council office canceled the event and informed Civetta it could not proceed.

Mr. Beauvais asked Ms. Tomasetti to clarify what she meant by "educational seminars." Ms. Tomasetti explained that Civetta offers educational seminars to help first-time homebuyers understand the homebuying process and the Turn the Key program, including how to qualify and what to expect. She said these presentations are conducted in various communities to provide information and build awareness. Civetta initiates these seminars independently but routinely informs and involves Council offices to collaborate on community education. She further explained that the seminars were separate from the development proposal, noting that Civetta submitted an unsolicited application to the Land Bank, was selected as the most qualified developer, and then began the community engagement efforts.

Mr. Beauvais asked if Civetta had spoken with the Councilmember before submitting the proposal. Ms. Tomasetti replied that they typically do not.

Chair Wetzel asked if public comments were received on this development.

Ms. Imredy Saah confirmed two written comments were received. She stated that one letter, from Ceiba, urged the Board not to approve the disposition until the 7th Council District completes its neighborhood plan and assessment of publicly owned land. The second letter, from Councilmember Quetcy Lozada, acknowledged Civetta's community meetings but noted strong community opposition to the project. The Councilmember requested that the Board not approve the disposition in alignment with residents and RCOs. Ms. Imredy Saah added that both letters will be attached to the September meeting minutes (attached as **Exhibit B**).

Chair Wetzel opened the public comment period and invited the first speaker, Ms. Nilda Pimentel-Perez, to come forward. Ms. Pimentel-Perez, speaking on behalf of the Norris Square Community Action Network (NSCAN), reiterated the group's opposition to the transfer of lots to Civetta Property Group. She referenced prior comments made at the previous Land Bank meetings and a July 2 letter sent to Councilmember Lozada, emphasizing that Turn the Key projects rely on PHDC subsidies and city-owned land, and that policy reforms are needed before such projects proceed. She explained that the group urged PHDC to expand affordability for households earning under \$52,000 and create a formula to offer some homes at lower price points.

Mr. Beauvais asked Ms. Pimentel-Perez to clarify whether her organization opposed development of the lots altogether or just the current proposal. Ms. Pimentel-Perez responded that they do not oppose development in general but oppose this specific project as presented. She explained that their objection is based on the process and the developer's unwillingness to modify the project model – the community made recommendations regarding price points and suggested including some market-rate units to help subsidize more affordable homes. She said the group is continuing discussions with Councilmember Lozada and other community organizations to explore a more equitable approach and is open to supporting any developer, including Civetta, who proposes a fairer model.

Ms. Lopez-Kriss asked whether the community saw any possibility of continued dialogue with the developer or if agreement was no longer possible. Ms. Pimentel-Perez responded that there is always room for compromise. She said that while she could only speak for her own group, they are open to continued discussions, including with Civetta, as broader efforts continue with Councilmember Lozada to develop a more equitable model.

Mr. Jeremiah asked if Ms. Pimentel-Perez was suggesting that market-rate units could help subsidize lower-priced homes. Ms. Pimentel-Perez agreed and said her group would consider that approach, emphasizing they are advocates, not developers, and seek affordability for households earning under \$52,000. She said any plan must be fair, consensus-based, and developed with community groups and CDCs. She added that the concept of mixed pricing could work if homes are distributed equitably across the neighborhood.

Ms. Lopez-Kriss asked whether including market-rate units to subsidize affordable ones would be acceptable to NSCAN. Ms. Pimentel-Perez confirmed it might be, explaining that details like distribution and percentages would need further discussion. She added that her group is open to evaluating any future proposals, including unsolicited ones, that meet community needs, but the current Civetta proposal remains unacceptable in its present form.

Mr. Jeremiah asked Ms. Tomasetti whether Civetta was willing to continue negotiating with community organizations to reach a resolution on the proposed development project. Ms. Tomasetti stated that Civetta makes every effort to engage with the community, understand its needs, and propose suitable development options. She explained that Civetta had previously suggested mixed-income projects with both market-rate and affordable units, similar to proposals by other developers who had submitted applications in the district, but those efforts did not gain support. After hearing community feedback favoring affordability for all project homes, Civetta decided to focus on 100 percent AMI affordable housing to reflect what they understood to be the community's primary preference.

Ms. Greenberg asked whether Civetta had proposed any mix of market-rate and affordable units for this project. Ms. Tomasetti replied that they had not included such a combination in the current proposal. Ms. Greenberg then asked whether Civetta would consider revising the plan and whether the Board should table the item. Ms. Imredy Saah interjected that under the Disposition Policies, any change in project use (including different AMI levels), or a greater than 15 percent change in price or square footage, would require a new application, full review, and presentation as a new project. Ms. Tomasetti added that Civetta has qualified homebuyers earning around \$53,000 but that lower-income households might not be able to afford the long-term maintenance expenditures of homeownership. She stated that their Turn the Key project is not a complete solution but a positive step toward addressing housing needs.

Ms. Gonzalez responded that low-income households seek the same opportunities as others and suggested designating some homes for that income range. Ms. Tomasetti apologized for any misunderstanding, explaining her comments were about long-term sustainability of homeownership, and Ms. Gonzalez added that housing counseling can help prepare buyers for long-term ownership.

Mr. Beauvais asked how this application reached this stage, questioning why Civetta chose to proceed despite community objections. Ms. Tomasetti explained that Civetta receives a wide range of feedback from communities on each project, including requests to address parking setbacks and affordability. She noted that not all requests for changes can be addressed and that community opinions are often divided. Ms. Tomasetti said Civetta considered all feedback and moved forward with what it believed to be the strongest proposal for the project sites.

Mr. Jeremiah asked what specific requests the community made to Civetta. Ms. Tomasetti responded that the absence of parking set aside for each unit was a major point of contention. She reported that the community had also suggested lowering the sale price of the homes to around \$200,000. She explained that unfortunately, Civetta cannot build at that price point given current construction and financing constraints; that level of affordability would require additional subsidies or external financial support beyond what the Civetta as the developer can provide.

Mr. Beauvais asked whether Civetta could withdraw the proposal without losing its progress or momentum if it agreed to make changes to the price point. Ms. Imredy Saah explained that community meetings were implemented by the Board to inform residents about projects, but under the Councilmandated Disposition Policies, developers are not required to negotiate with or obtain approval from the community. The Land Bank process does not require community consent. The Board several years ago created a policy requiring that the developer provide information about the proposed project to the community so that community members could then provide feedback at the Board meeting should they wish to. RCO involvement and negotiation with the community is required by the law when a zoning variance is being sought, which is not part of the Land Bank's process. She reiterated that if a proposed project changes by 15% or more in price or scope, it must be re-evaluated and submitted as a new

application. She added that developers do have the option to withdraw their proposals, as some have chosen to do after multiple attempts to be approved failed.

Mr. Rodriguez clarified that developers may withdraw proposals for financial reasons, noting that after investing heavily in pre-development, they may decide to stop if Board approval seems unlikely.

Mr. Jeremiah noted that without support from the 7th District Councilmember, the project would likely not advance, since the Councilmember must introduce the necessary legislation. He expressed deep concern with the process, saying it fails to allow the City to meet its housing goals. Mr. Jeremiah noted that while the Mayor's housing initiative seeks to expand affordability, developers cannot be expected to absorb financial losses to meet lower price points. It is impossible for a developer to build a home costing at least \$225,000 to build and then sell it for \$200,000 without receiving substantial public subsidy. Drawing on his experience with PHA, Mr. Jeremiah explained that affordable housing development for low-income households only works because of significant federal and state subsidies, as PHA serves households with average incomes of \$24,000 and average rents of \$365. He stated that expecting private developers to make such projects viable without similar support is unrealistic – it is a financial issue, not a matter of goodwill.

Further reflecting on his nine months on the Board, Mr. Jeremiah voiced exasperation and frustration about the Board's role in an unworkable system. Ms. Imredy Saah pointed out that the Land Bank's process is determined by the ordinance passed by City Council, and that it must follow the process set forth in the law.

Ms. Gonzalez commented that some Councilmembers choose not to advance certain types of projects, such as side yards or gardens, in their districts. She emphasized the need for stronger collaboration between the Land Bank and City Council to set clear development priorities. Ms. Gonzalez said this would prevent wasted effort and expense for developers on projects unlikely to be approved and ensure that proposals presented to the Board have a fair chance of moving forward.

Chair Wetzel recognized Jeremy Blatstein. Mr. Blatstein stated that this was the third hearing on the Civetta project and criticized the timing of Councilmember Lozada's opposition letter, submitted the morning of the meeting after two prior reviews. He called the letter inconsistent, noting that it questions eligibility for city employees while opposing homes priced for households up to 100% of AMI—the standard approved by all Councilmembers under the NPI bond issuance that included funding for the Turn the Key program. Mr. Blatstein emphasized that the Land Bank's role is to dispose of land, not hold it, and that the Board should evaluate qualified applications independently of Council politics. He said rejecting the project undermines housing goals, discourages minority developers, and blocks progress toward Mayor Parker's goal of 30,000 new homes. He urged the Board to approve the proposal.

Next, Chair Wetzel recognized Ms. Tomasetti, who wanted to add for the record that Civetta's planned educational seminars on August 13th and September 3rd were both canceled by the Councilmember's office on the day of each event, despite the team's preparation. She expressed disappointment that, after three Board reviews and significant time and resources from all involved, the project had not received a final determination. Ms. Tomasetti reaffirmed Civetta's commitment to the Turn the Key program, sharing that it has had a powerful impact on homebuyers and their families. She said Civetta remains eager to continue providing affordable housing in Philadelphia.

Chair Wetzel recognized Zane Knight. Mr. Knight requested that 447 W. Norris Street be excluded from the project because it features a long-standing Mural Arts piece, *Camille's Dream*, which would

be lost to redevelopment. He also questioned the claim that Philadelphia lacks housing, noting the city already has many vacant or underused homes. Mr. Knight thanked the Board for discussing broader Land Bank challenges and emphasized the need for solutions at multiple levels of government.

Chair Wetzel recognized Patricia DeCarlo. Ms. DeCarlo opposed the Civetta project, noting most residents voted against it at the community meeting. She said selling lots for \$100 fuels gentrification and that affordability metrics inflated by suburban incomes make the homes unaffordable for Norris Square residents. She urged the Board to reject the project, saying it does not benefit or reflect the needs of the community.

Chair Wetzel recognized Relina Bonilla. Ms. Bonilla, a Norris Square resident and RCO member, said the community wants homes but cannot afford the proposed \$280,000 price under the Turn the Key program. She said her own daughter, despite stable employment, would not qualify for such a mortgage due to expenses and credit factors. Ms. Bonilla acknowledged that Civetta had allowed residents to tour a model home and appreciated its efforts to maintain neighborhood character and consider accessibility needs. However, she said the program's income and credit requirements exclude many working families. She urged the City and developer to find a compromise, suggesting lower prices around \$230,000–\$250,000, so that long-term residents can remain in the community and preserve its history.

Mr. Isaiah Franco, representing Ceiba-LEDC, expressed support for Councilmember Lozada's letter and stated that she is developing a housing framework for the 7th District to guide future projects. He thanked Civetta for its work and the opportunity to tour the homes but said his organization wants to respect the process and ensure the project aligns with the Councilmember's forthcoming plan before moving forward.

Chair Wetzel, as Chair of the Board, acknowledged that the discussion had shifted from the specific disposition to broader issues of policy, affordability, and community input. He stated that while the Board's role is to approve or deny property dispositions, it is difficult to do so when larger policy matters remain unresolved and when both the Board and City Council must act. Chair Wetzel said his duty was to call the question and move the process forward, leaving it to individual Board members to express their views through their votes.

Chair Wetzel then called for a motion regarding the proposed disposition.

Mr. Beauvais moved to approve the disposition, and Mr. Jeremiah seconded the motion.

Upon motion made and duly seconded, the Board held a roll call vote. Five Board members voted in favor of the disposition (Mr. Beauvais, Mr. Jeremiah, Ms. Lopez-Kriss, Chair Wetzel, and Mr. Brown), and five opposed (Mr. Goodman, Ms. Gonzalez, Ms. Greenberg, Mr. Dema, and Ms. Rashid). As a majority of the eleven Board members (six votes) is required to approve or reject a proposed disposition under the organization's bylaws (as required by the Pennsylvania Land Bank Act), the motion failed, and the disposition was neither approved nor rejected, thus tabling the disposition.

Item V

Public Comment (Old & New Business)

Chairman Wetzel invited any old and new business to be raised at this time.

PLB Board of Directors DRAFT Meeting Minutes for September 9, 2025

Page 6 of 30

Mr. Ryan Gittler-Muñiz, representing Iglesias Garden, reminded the Board that it has been eight months since submitting a revised Purchase and Development Agreement (PDA) and nearly five years since the original garden application was filed in 2020. He said he was following up after being told two months earlier that an update was expected by the end of the summer and asked if there were any new developments.

Ms. Imredy Saah responded that the Purchase and Development Agreement is still being revised but explained that progress has been delayed due to limited staff capacity—only two legal staff members are currently handling the workload of four to five people. She emphasized that the delay is not due to lack of effort and said she hopes to finalize and deliver the agreement within the next few weeks. She acknowledged the importance of the project, noting it remains a priority.

Next, Mr. Blatstein recommended that Land Bank Board meetings be recorded and televised to increase transparency and public access. He said he plans to petition City Council to amend the bylaws to require live recordings. Mr. Blatstein reiterated that the Board's mission is to return land to productive use, not to hold it indefinitely, and expressed concern over the frequency of "no" votes. He called for a review of the Land Bank's disposition policy, criteria for qualified applications, and the roles and accountability of Board members to ensure the Board fulfills its mission effectively and in line with its intended purpose.

Ms. Imredy Saah then introduced an email from Amanda Martinez, owner of 1315 South 20th Street, asking the Land Bank to address overgrown trees and debris on the vacant lot at 1317 South 20th Street (the email is attached to these minutes as **Exhibit C**).

Mr. Rodriguez reported that the Land Bank received Ms. Martinez's email on Thursday and resolved all issues by Friday. He noted that PHDC manages maintenance for PRA and Land Bank properties and explained that 311 requests may take longer to reach their office, but direct inquiries are typically addressed within 24 to 72 hours.

Item VI Adjournment

Seeing no further comments from the Board or the public, Chair Wetzel called for a motion to adjourn.

Mr. Beauvais moved to adjourn the meeting. Ms. Lopez-Kriss seconded the motion.

Upon motion made and duly seconded, the Board unanimously voted to adjourn at 11:17 a.m.

Do you want me to spell or just answer the question? Okay. I'm happy you asked, because I as I was brainstorming this this morning, just wrote down a sequence of events and dates, and so I'll read those now and tell me if you want me to stop. But we began engagement with the Councilwoman's Office in November of 2024, starting the conversation, talking about community engagement and requesting that our company be available as a resource to conduct educational seminars in the community. So we have a full-blown, like, presentation that we take out in the communities to help them understand what the process is going to look like, what Turn the Key is, what Turn the Key isn't, how they would go about qualifying. MR. BEAUVAIS: And you started this in partnership with the Councilperson and then MS. TOMASETTI: We started it ourselves. And we've done this in many communities before, but we always reach out to the Council Office to offer this service and help educate the community in advance of bringing a first-time project or any new project to a community. MR. BEAUVAIS: Okay. So I'm missing something. You were doing the educational process, how did that translate to 30 unsolicited parcels that you wanted to develop? MS. TOMASETTI: Oh, sorry, somewhat unrelated. Yeah, no, we submitted an unsolicited | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | two comments, public comments in reference to this particular agenda item. They were both given to the Board. One was received this morning and therefore given to the Board in person. But we received a letter from Ceiba stating that they asked the Board not to approve the, the this particular disposition. And they're asking that this disposition be stopped until the Seventh Councilmanic District can complete its comprehensive neighborhood plan and assessment of the use of a publicly owned land. So they're asking the Board to respect the process and wait to make any further dispositions on decisions on land dispositions in the Seventh District. The second letter was received this morning, it came from Councilwoman Quetcy Lozada's office stating that they're also asking that they recognize that Civetta has met with the community at various meetings. Nevertheless, the community has expressed strong opposition to the proposed plan for a variety of reasons. And she |

And do we have any additional people signed up? MS. SAAH: There's nobody MR. WETZEL: None? MS. SAAH: who has signed up here MR. WETZEL: Thank you. This is a public comment period. So, the first person who signed up, it's Nilda, is it Pimentel? MS. PIMENTEL-PEREZ: Yes, Pimentel. MR. WETZEL: Please come forward. Thank you. MS. PIMENTEL-PEREZ: Thank you. Good morning. MR. WETZEL: Good morning. MS. SAAH: Good morning. | 1 2 3 4 4 5 6 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | Page 16 homeownership projects absent a PHDC subsidy, second mortgage. So mindful of that, we made recommendations to the Councilwoman on how PHDC could expand accessibility and affordability for potential homebuyer subgroups, the people that we advocate for, that make less than \$52,000 a year. We also made a recommendation for the Councilwoman to approach PHDC and recommend how they may be able to come up with a formula to ensure an equitable distribution of the number of homes. Not necessarily the majority, but a number of homes offered at a lower price point. So, when a developer representing the building industry reaches out to community representatives, as was the case of Mr. Mo Rushdy at the last Land Bank Board meeting, and does so at a critical time, we listened. And despite the deep disagreements and tensions that we've had in the past, we believe —we took him seriously, and now we believe that we have a path for negotiations and reaching common ground. The local CDC obviously play a critical role in this process, and we expect them to be |

Our group wants to sort of restate its position regarding the transfer of lots to the Civetta Group. The reasons for our position, and for consistently opposing many of these projects, were presented at last month's Land Bank meeting. What I want to highlight, if I may, some of the main points that we made at, at that meeting, which were also included in the letter that we sent to the Councilwoman back in July, I think it was July 2nd. And I'll reference that in the points on that letter today. Among other things, we asked the Councilwoman, that before any projects of this nature were approved through the Turn the Key program, crucial policy reforms needed to be implemented. And, as you stated at the, the last meeting, that issue is out of your work scope. We cannot lose sight of the fact that transfer of these lots are intrinsically linked to PHDC subsidy, the second mortgage. And the Turn the Key program cannot function without city-owned land. And similarly, the Land Bank's Board cannot | 24 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | Page 17 given the local market realities and the political environment that we're in, that not a single entity can develop all the lots by itself. So we believe that good faith prevails now with Councilwoman Lozada and Mr. Rushdy advocating before PHDC. MR. RODRIGUEZ: Can I just make a point of clarification? MS. PIMENTEL-PEREZ: Yes. MR. RODRIGUEZ: Mr. Rushdy does not have a proposal before MS. PIMENTEL-PEREZ: No, we understand that. MR. RODRIGUEZ: It's Tomasetti is the name of the developer, and Civetta is the name of the company. MS. PIMENTEL-PEREZ: No MR. RODRIGUEZ: You keep referring to Mr. Rushdy, which was a project that was a year and a half ago. MS. PIMENTEL-PEREZ: No, I understand, but I'm speaking to the issue of process and allowing the community, the major stakeholders in the community, to engage in a dialogue that will lead |

I, I don't I don't get this process. MS. SAAH: So it is MR. JEREMIAH: I don't get it because it doesn't result in, in what the outcomes that I think we want to see. The Mayor has an ambitious home initiative that we're trying to be supportive of. We're hearing from the community organizations that there need to be lower price points. That cannot be on the developer. And I think I've said it before, and I, I hate to do it again. This is a question of dollars and cents. We cannot ask a developer who is paying \$225,000 to build a product, to sell that product at \$200,000 without a substantial subsidy coming from somewhere. Somebody has to pay for it, right? I won't do it. At PHA, I would not do that. And we receive a whole lot of subsidies that allows folks to, to make this product work. The average household income for a PHA client is \$24,000. The average rent is \$365, regardless of unit size. | 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | Page 40 related to the process. I know that in certain Council districts, you know, certain Council people do not like side yards, so those are not introduced, right. Some of them may not want gardens, and those are not introduced. But I think there needs to be more collaboration between the Land Bank and Council to establish priorities for their districts so that we're not here spinning our wheels and making developers invest time and money on a project that they know it's not going to get to the finish line. So I think there's something that needs to happen, you know, aside from this meeting and aside from this project, to have those real conversations so that, you know, when, you know, proposals come before the Board, they have a fair, you know, expectation of getting approved at the at the end. MR. WETZEL: Thank you, Maria. Ryan Gittler-Muniz? MR. GITTLER-MUNIZ: Just a public comment. MR. WETZEL: I'm sorry, I can't hear you. MS. LOPEZ-KRISS: He said not this section. |

A couple things that I just want to make clear, right. This is a continuation of the project, right, so things that were discussed last week, Darwin, when you were not here, that were kind of covered. So I just wanted to make sure that was clear in terms of some of the points that were raised. Second, the fact that Councilwoman sends a letter for the date of the third meeting is kind of alarming. Like, this was heard two other times, and the third time she decided to send a letter of opposition. Not really sure where that goes, and I don't think that that's really fair of the process. Secondly, this letter doesn't make sense. If you look at the bottom paragraph in the middle, it says, "One of our concerns is that a considerable number of residents who work for the City may not |

You want there to be more minority developers in the City of Philadelphia, but they come here and see what's going on, and why would anybody want to jump through all these hoops? It's really a shame that this project really is the best example of Turn The Key. And then we're talking about affordability? That makes no sense to me, and Councilwoman Lozada, should be ashamed that she sends this letter the morning of, against it. Because, again, this solves a piece of the problem, and it's not like I'm not really sure what she even means. Half this is, like, garbage. And realistically, we need housing in Philadelphia. The Civetta Group is, is doing that, and you should vote in support of this project to also support Mayor Parker's goal of 30,000 homes, because each and every one of you | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | confirm that the Council was ready to receive us at their office to conduct the homebuyer seminar, and we were told that we would have to reschedule. As has already been said here a number of times, this is our third round on this project alone, and it just seems like, I know, and no, not just for our team, but certainly for our team as well, we've consumed a great deal of time and resources. All of you have consumed a great deal of time and resources, and there's plenty of people behind the scenes putting in a ton of work, and it just seems like it's all for naught, which is a shame. WETZEL: Thank you. Zane Knight? 3 mention of, like, issues within Land Bank and what MR. KNIGHT: Hello. Thank you for allowing 4 we can, like, do to address a lot of these issues, 5 me to speak, and thank you for voicing, you know, 5 and I share a lot of those concerns, and I also 6 some of the issues that I feel like, you know, 6 understand that a lot of our issues need to come 7 y'all see within the Land Bank, you know, as well 7 from, like, state and federal levels, but I also 8 publicly. I'm mostly just echoing a lot of what's 8 share our understanding that where -- we are where 9 already been said about the project, but there 9 we are at presently. Thank you very much. 10 were a couple of other points I wanted to bring MR. WETZEL: Patricia DeCarlo? 11 up. One being for specifically the lot 447 West MS. DECARLO: Thank you. Good morning, third 12 time. So let's get to the point. Number one, the 12 North Street, which is pictured in the packet here 13 at the top and is labeled with the address. 13 community meeting that was hosted by this You'll see that there is a mural here on this 14 developer was way outside of the neighborhood. 15 -- on the side of the connecting house. The title 15 They had to be pulled in and written to, to give a 16 of the mural is Camilla, or Camilla -- Camille's 16 meeting at the neighborhood where they were 17 Dream. As somebody who's, like, been working with 17 proposing to build. And if you -- I don't want to 18 mural arts, I would, at the very least, if this 18 go into a lot of details, because you should know 19 project was unfortunately approved, I would 19 the details, you've already heard them, okay? 20 request that this particular lot be excluded from 20 So number two, when we requested a meeting in 21 that approval, due to the fact that the 21 the neighborhood, so that the neighborhood would 22 neighborhood has already seen issues with at least 22 know about it, knowing full well that they were 23 one, if not a couple of murals being covered. 23 scheduled to meet with you at this date, they gave So I don't see a benefit -- I mean, I see a 24 us a date for the meeting, because the date that 24 Page 47 Page 49 1 benefit to, like, the public art element, and 1 we had, we had already scheduled another meeting. 2 especially in our neighborhood, but I don't see a 2 So the date that they gave us was beyond the date 3 benefit to the fact that public money, City money, 3 of the meeting with you, which means you would 4 has gone from mural arts to put these public works 4 have approved it, we wouldn't have known, and then 5 on display and then to give away a lot that is 5 they would have had the community meeting and it 6 going to inevitably be developed and cover up what 6 would have been approved. 7 is supposed to be public artwork. And this work 7 So that's why we came here, and you stopped 8 has been here since 2004, so this work has been 8 them. So we had the community meeting at the 9 here for over 20 years now. So that's just one 9 community, and they came. Of all the votes that 10 point that I would like to address. 10 were done, two were in favor. Everything else was Also, to the point about Philadelphia needing 11 against, 20. What has been the response from the 12 housing, I feel like that is a misconstrued 12 neighborhood? And it's something that, with all 13 narrative, because we have a significant ratio of 13 due respect to the Land Bank and the mission and 14 usable houses and -- usable housing for people, a 14 the blah, blah, bleh, bleh, it's our neighborhood, 15 significantly ratio, more housing to, like, 15 it's our land, and we can't ask strongly enough, 16 homeless people and other people, so, you know, I, 16 to tell you, stop giving away our land at \$100 per 17 I find that narrative a little skewed, considering 17 lot, in order to gentrify the neighborhood and get 18 there is a disproportionate number of empty and 18 the people out of there. 19 available housing, far more than two units per 19 Do you know how many people are sleeping now 20 necessary individual. 20 in RVs, trucks? I'm sorry, PHA, what's your So yeah, those are, I believe, my only two 21 waiting list, waiting to receive to get a chance 22 at getting into public housing? Right? The 22 points, just the request for the one lot 23 displaying public art to not be given away and 23 Latino community, what's the percent at PHA

Whether it's the Land Bank's fault, PHDC's fault, the Mayor's fault, I don't know. The developer's fault, it's not beneficial. It is not affordable to the neighborhood. So the word affordable in the City of Philadelphia has been misused to an extent and lied to people to an extent that is unforgivable. Number one, if you took out the, the outside counties that you're now including into the affordable numbers, that would lower the affordability and the median income way down. If you did the median income based on the income of the area where you're building, that would give you a sense of what's affordable. But to do the median income based on City of | | Page 52 isn't affordable to the median income in our neighborhood. It doesn't provide any parking off- street. Please drive through Norris Square at night so that you see all these cars that are part of people who live there, but don't have a place to park off-street, because all these developments and multi-family developments have been done with no off-street parking. Sad. So understand that the decisions you make, have an impact on the neighborhood. It's not beneficial. Please vote no today. No more excuses, no more uh-huh, mm-hmm. Just know it does it doesn't benefit the neighborhood of Norris Square. Thank you. Have a great day. MR. WETZEL: Thank you, ma'am. And is the last one here, is it Relina? MS. BONILLA: Yes. MR. WETZEL: Vanelli? |
| 19 20 21 22 23 24 | Philadelphia income and the surrounding counties, that's just a lie, that's fraud. It's never going to be affordable to a poor neighborhood, low income, like Norris Square. What it's going to do is it's going to gentrify. Number two, let's learn from where history in | 19 20 21 22 23 24 | MS. BONILLA: Bonilla. MR. WETZEL: Bonilla. Thank you. MS. BONILLA: Hi. My name is Relina Bonilla, and I am a community member of Norris Square, also part of the RCO community of Norris Square. And when we first heard about what was happening, we |

If you go to Norris Square right now, you will find small houses, two stories, in small streets. Medium-sized houses, median income, and medium-sized streets. Large houses, Victorian houses, and the larger streets. What that allowed was a mixed income neighborhood. What are we doing now? There's no mixed income. It's just not affordable to low income and working class. Last statement. I remember years ago being absolutely amazed. There was a family on welfare. The first bill that they always pay, the first bill they always paid was their housing bill, not the food bill, not the their housing bill. And so do not assume, like some people do, that because they have a lower income, they can't afford to pay, because they will be responsible and they will continue to fix it, because they will do it and their neighbors will do it. So please, Land Bank, look at your mission. It isn't to give away and gentrify the poor neighborhoods of Philadelphia. It is to provide use for the land that is beneficial to the community. This project is not beneficial. It | 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | came to the meeting. And we had our community meeting, and a lot of questions were asked, including with Turning The Key. And my heart is saddened because there can't be a resolution to this. We want homes for our community. I don't want to see my older children move out from the community, because they can't afford the proposed mortgage rate that Turn The Key, as all Civetta have in place, as well as the price of the home, 280,000. I've been in the home, Mr. Civetta allowed us to go in, and I was very impressed, because he's trying to keep the homes built the way the community has it built from way back. I was excited to see that there was more than one bathroom, because nowadays a family needs more than one bathroom, especially when you're raising young children. I wasn't happy that the bathroom was on the third floor and the master bedroom was on the third floor because, as a parent, you want to make sure you are the closest to the front and back doors, not your children. Page 54 1 want to purchase the home, he was willing to make 1 true, I have seen people in my generation move out 2 accommodations for that. And he was also willing 2 of Philadelphia. I want our generation to 3 to maybe make a first-floor bathroom if it was a 3 continue to live and make it historical and be 4 senior citizen or senior citizens wanting to have 4 reminded this is where you grew up, this is where 5 their own home, who maybe have lived in an 5 your grandmother, your grandparents. I want the 6 apartment all their lives. So it's got its pros 6 ancestral and the history part to stay preserved. 7 and cons. 7 MR. WETZEL: Thank you -- thank you so much. But I will say this, I have an adult daughter 8 8 That is it for people signed up? 9 who's raising two of her nephews. She's got a 9 MR. FRANCO: Excuse me. I apologize, I wrote 10 good-paying job working in the hospital, but 10 $\,$ my name on this form late. Would it be okay if I $\,$ 11 paying car insurance, medical insurance, car 11 give a brief statement? 12 payments, and trying to maintain the necessities, MS. SAAH: Yeah. Keep going. Please 13 she would not be able to pay the mortgage price 13 identify yourself. 14 that has been offered by Turn The Key. Now, Turn MR. FRANCO: Yes. Hello. My name is Isaiah 15 The Key says, "Yes, we understand the 100 percent 15 Franco, I'm here representing Ceiba-LEDC. I just 16 AMI," but Turn The Key said it would depend on the 16 wanted to speak, and again echo her letter. After 17 person's credit, it would also depend on what bank 17 listening through everything today, I wanted to 18 institution that they would process a loan. So 18 say that the Seventh Councilwoman is working on a 19 there's the con. 19 plan that could perhaps be that framework that you Because not everybody has good credit, but 20 were talking about, moving forward and having 21 they're maintaining it and trying to build it. 21 Council District goals for these housing 22 And not everybody's going to have the same bank 22 initiatives. I just wanted to echo her letter, 23 person with the loan. So something has to give 23 and highlight that we appreciate the opportunity 24 and take there when it comes to Turn The Key. 24 to tour these houses. Page 55

1 And, and I understand that Turn The Key is willing 2 to offer their 10,000 plus the other grant, but 3 they also said it depends on the person's base 4 credit. We have certain people that live in our 5 community that are going to college and working, 6 but not getting an -- not getting the affordable 7 pay rate, because Pennsylvania has a problem with 8 that. So that's why we want affordable housing. 10 When we had the meeting, yes, someone shouted out, 11 "How about 200,000?" But that's not what we 12 asked. We were -- someone had said, "How about if 13 you would go maybe 250,000 or 230,000?" He said 14 no, he couldn't do it. And I understand the 15 economy is hard and tight for everyone. And 16 business is business, you're trying to make an 17 income. 18 You got to pay your employers who work 19 underneath you, you got to support yourself and 20 your family. And that's very understandable. But 21 something has to break. And if nothing breaks and 22 we keep coming back and, and fighting this, and 23 fighting us, something has to come out. An

Page 57 We appreciate the work that Civetta has done, 2 but we want to trust the process and ensure that 3 this will be able to get through to the 4 Councilwoman on time for it to be approved. 5 That's it, we've been here for a while. Thank you 6 all. MR. WETZEL: Thank you. As Chair, I sort of 7 8 have to stay neutral in things, but I think we've 9 reached a point where we're talking about process 10 versus policy and affordability issues and 11 community input. There's a lot going on here. 12 Our mission is either to approve or disapprove 13 dispositions, but it's almost impossible to do so 14 when you have such policy issues in the states, 15 and you're almost asking us to decide the fate of 16 certain communities with the outcomes that they 17 may result from this. 18 It's also very difficult to deal with a two-19 step process where it's both our vote and 20 Council's vote, and I understand that. From a 21 process perspective today, as Chair, I need to 22 call the question, and that's my, my job today, 23 not to deal with all the other random occasions,

Board of Directors Philadelphia Land Bank 1234 Market St, 16th Floor Philadelphia PA 19107

Dear Board of Directors,

We are sending you this letter to respectfully request that you not approve the disposition of the 30 publicly owned parcels of land listed below to the Civetta Property Group, LLC at your September 09, 2025 meeting:

509, 511, 534, 536 W. Dauphin Street; 310, 313, 503, 505 Diamond Street;
516, 518 Edgley Street; 2305, 2307, 2309 N. Lawrence Street; 2210, 2212, 2233, 2306, 2308, 2310,
2312 N. Leithgow Street; 447 W. Norris Street; 2206
N. Orianna Street; 2202, 2204, 2257 N. Orkney Street; 2049, 2138, 2236,
2252, 2254 N. Reese Street; 304, 309, 311, 323, 512 W. Susquehanna Avenue; 2047, 2054, 2151 N.
5th Street (CD 7)

The disposition of the 30 publicly owned parcels of land listed above to the Civetta Property Group, LLC, should be stopped until the 7th Councilmanic District completes its comprehensive neighborhood plan and assessment of the use of available publicly owned land that is part of that Council District's work under the Housing Opportunities Made Easy (H.O.M.E.) initiative. The 7th District Councilperson has engaged a consultant and is organizing a series of meetings with private developers, community-based organizations, and neighborhood residents to create a plan that makes the best use of the publicly available land in her district.

The Philadelphia Land Bank should respect the process. It should wait until that plan is completed by the end of the year before making any further decisions on land dispositions in the 7th Councilmanic District. We believe that a plan that is based on the input of private developers, community-based organizations, and neighborhood residents is the most productive and constructive vehicle to ensure that public land is best used for the public good.

We applaud the Civetta Property Group for meeting with community groups this summer and for providing tours of the Turn the Key properties that they developed. We look forward to working with them during the 7th Councilmanic District H.O.M.E. planning process.

Thank you for your attention to this matter.

Respectfully,

Will Gonzalez, Executive Director

Dear Board of Directors:

Thank you for the time to address this incredibly polarizing issue. I am writing to you regarding the Civetta Property Group LLC request for the disposition of 30 parcels of publicly held land by the Land Bank. This application is a rejoinder to the response of the Land Bank Board of Directors meeting on August 12, 2025.

On July 24, 2025, Civetta met with the residents and community leaders at a meeting hosted by NSCA RCO in the Norris Square Community. Although Civetta's strategy included 100% affordability, local residents expressed strong opposition to the proposed plan. Concerns included; affordability based on local AMI, access to mortgages through City identified lending institutions, opportunities for local residents through community reinvestment and other issues.

Since that time, my staff has spoken directly with Civetta LLC in an effort to ascertain both their short and long-term goal for development in the 7th District. I have also reached out to a host of local Community Based Organization, for profit and non-profit developers, PCPC's designated Registered Community

Exhibit B

Organization and affected residents regarding the housing issues and their impact on the 7th Council District.

I am sensitive to and understand the concerns that have been raised by this request which include;

gentrification, income-based eligibility issues, removal of greenspaces, displacement of residents as a result

of market pressures, and equitable development to name a few.

I understand the City of Philadelphia has worked to create tools to address the housing challenges, one of

them being the Turn the Key Program for work force housing in which this request is based. Turn the Key

is an income eligible based program. Houses will sell for up to \$280,000 with income qualified buyers

being eligible for mortgage "buy-down" assistance funds. One of our concerns is that a considerable number of residents who work for the City may not meet the eligibility requirements due to their salary.

We also have concerns regarding locally funded CBO's and their housing counseling departments being

excluded from the process of preparing and directing local residents for this opportunity. Finally, if the

pipeline for City employed residents to take advantage of this opportunity is no longer "viable" in the

developers view, will the houses remain "workforce housing" or will their purchase option broaden. These

are questions that continue to require answers.

I believe there is a place for for-profit development. The workforce housing tool offers the most expedient

way to develop housing and while not addressing moderate income housing issues, some housing concerns

may be abated. There is also a great need for low-income housing purchase options for Philadelphians. I

believe strong communities have always had a stratum of social and economic diversity. The disposing of

30 parcels of City owned property may serve a short-term goal of creating housing opportunities for our

workforce but I must ensure, as the peoples representative of the 7th Council District, that my entire

constituency has viable housing option and opportunities.

Presently, I support the position of an overwhelming number of residents, and all RCO's, who do not believe

that at this time this project serves the best interest of the majority of 7th Council District residents that are

in need, as articulated by numerous groups.

Respectfully,

Quetcy M. Lozada

Councilmember, 7th District

Hello Andrea,

My name is Amanda Martinez, I own property 1315 S 20th St, Philadelphia, PA 19146. My email is amandamart417@gmail.com.

Please accept this email as a public comment for the Land Bank's board meeting on September 9, 2025. This email addresses the severe and ongoing neglect of the neighboring vacant lot at **1317 S. 20th St,** evidenced by the attached photos taken on September 4, 2025. These images show overgrown weeds and specifically one overgrown weed that has now matured into a large tree, encroaching on my private backyard.

For over two months now, I've repeatedly tried to resolve this issue through official channels, including 311, CLIP, the Land Bank, PHS, and Kenyatta Johnson's office. Despite numerous attempts, my requests for assistance have been ignored or rerouted, resulting in a frustrating lack of action. This situation is unacceptable.

I am formally asking three questions:

- 1. When will the 1317 S. 20th St lot be clipped to mitigate the immediate danger and nuisance caused by the overgrown weeds? Vague responses that it is the City, CLIP, or PHS's job is not acceptable I want a date and who will be clipping it. In the event this lot is clipped before September 9, 2025, I want the following two questions to be addressed.
- 2. There was a public violation notice on this property on August 21, 2025. Who at the Land Bank received this notice and who is responsible for addressing it to ensure it is resolved?
- 3. What is the Land Bank's plan for ensuring the long-term and proactive maintenance of this lot, particularly given PHS's unresponsiveness?

I anticipate these questions to be publicly addressed during the board meeting on September 9, 2025 and will be awaiting a response in the meeting minutes. I have also cc:ed Kenyatta Johnson's team to keep them informed on the neglect of this lot, and have cc:ed PHS to keep them informed and be held accountable for this lot as well.

Thank you, Amanda Martinez

PHILADELPHIA LAND BANK

OCTOBER 14, 2025 BOARD OF DIRECTORS MEETING MINUTES (DRAFT)

A Regular Meeting of the Board of Directors of the Philadelphia Land Bank was held on Tuesday, October 14, 2025, at 1234 Market Street, 17th Floor Boardroom, Philadelphia, PA 19107, of which proper notices were given.

Call to Order

The meeting was called to order at 10:02 am.

Ms. Imredy Saah announced that prior to the Public Session, the Board held an Executive Session during which Mr. Rodriguez explained that the meeting could not proceed due to several last-minute notifications of absences.

Item I Roll Call

The following members of the Board of Directors reported present: Nicholas Dema, Maria Gonzalez, Jenny Greenberg, and Michael Johns.

Cornelius Brown, Darwin Beauvais, Andrew Goodman, Kelvin Jeremiah, and Rebecca Lopez-Kriss were absent from the Board meeting. Herb Wetzel and Majeedah Rashid were also absent.

The following Land Bank staff members were present: Angel Rodriguez, Andrea Imredy Saah, Esq., Cristina Martinez, Brian Romano and Carolyn Terry.

Public Attendees: The list of public attendees follows these minutes.

Since a quorum of Directors was not present, Ms. Imredy Saah stated that the Board could not proceed with business, and that only a motion to adjourn could be passed without a quorum present.

Vice Chair Dema called for motion to adjourn.

Ms. Gonzalez moved to adjourn the meeting. Ms. Greenberg seconded the motion.

Upon motion made and duly seconded, the Board members present unanimously voted to adjourn at 10:06 a.m.
